PROFILE SUMMARY

Aspiring Data Analyst and B.Tech Computer Science Engineering student specializing in AI, ML & DL with hands-on experience turning raw datasets into actionable insights using SQL, Python (Pandas), and Power BI. Skilled in data cleaning, EDA, dashboarding, and KPI reporting, seeking an entry-level Data Analyst role.

EDUCATION

Teerthanker Mahaveer University **August 2023 - May 2027**
Bachelor of Technology, Computer Science Engineering (AI) *CGPA: 8.07*
Priyanka Modern Sr. Sec. School, Dhampur | *CBSE* **2008 - 2022**

SKILLS

Languages: Python, SQL, Java, C++, JavaScript (ES6)
Data Analytics: Data Cleaning, EDA, Statistical Analysis, Customer Segmentation, Churn Analysis, Revenue Analysis, KPI Reporting, Data Visualization
Libraries & Frameworks: Pandas, NumPy, React.js
BI & Database Tools: Power BI, Advanced Excel, MySQL, Jupyter Notebook
Developer Tools: Git, GitHub, VS Code

EXPERIENCE

iNeuBytes Technology & Services Pvt. Ltd. **Oct 2026 - Present**
Data Analytics Virtual Intern *Virtual*

- Completing project-based **Data Analytics** assignments covering data cleaning, **EDA**, and **KPI reporting** to turn raw datasets into business insights.
- Submitting documented analysis, project work, and deliverables through the iNeuBytes portal within defined timelines.

Genius Cyber Security Council **Jul 2026 - Oct 2026**
UI/UX Design Intern & Team Lead *Remote*

- Built the official Genius Cyber Security Council website, focusing on **UI/UX**, **responsive design**, and user experience.
- Led team coordination and managed client relationships, project requirements, and stakeholder communication; supported business expansion by engaging with universities, meeting deans, and building institutional partnerships.

PROJECTS

Vande Bharat Train Passenger Performance Analysis | *Power BI, DAX, Power Query* **Live** | **Github**

- Developed an interactive **Power BI dashboard** analyzing **100,000+ booking records** across 164 trains and 23 states to track **passengers, revenue, occupancy, speed, and on-time performance**.
- Cleaned and transformed raw Excel data using **Power Query** and built a **data model** with one-to-many relationships across booking, train, and state tables.
- Created **DAX measures** and KPI visuals to identify the busiest train, highest-revenue route, and class-wise passenger demand.

Credit Card Financial Data Analysis | *SQL, Power BI, DAX* **Live** | **Github**

- Built an end-to-end financial analytics solution with **SQL** and **Power BI** covering credit card transactions, revenue trends, customer demographics, and portfolio results.
- Created **KPI measures** and time-based analysis, including **week-over-week revenue trends**, to track financial results and customer spending behavior.
- Delivered dashboards evaluating card categories, customer segments, transaction activity, and delinquency risk.

Walmart Sales Analysis | *MySQL, SQL, Data Analytics* **Live** | **Github**

- Queried retail transactions in **SQL** to assess sales performance, product categories, shopper behavior, and payment preferences.
- Applied aggregations, joins, subqueries, **Common Table Expressions (CTEs)**, and **window functions** to extract business insights and examine sales trends.
- Conducted time-based, customer-segment, and product-level analysis to spot sales patterns and support business reporting.

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** Big Data Foundation — IBM SkillsBuild (IBM MOOC); Advanced Excel | SQL | Power BI — Skill Course.
- **Problem-Solving:** Solved **150+ problems** on LeetCode across SQL, Data Structures and Algorithms (DSA), strengthening analytical thinking and database querying skills.
